Accella AI

We Make Smart Manufacturing a Reality

BUILD AN AI SOLUTION VS BUY AN AI SOLUTION

FOR VISUAL INSPECTION

COST AND TIMELINE

- Cost to hire Data Scientists, Architects, Data Engineers, etc.
- Cost and time to develop models, train and test them
- Cost and time to integrate AI solution with PLCs, ERP, MES, QMS systems

COST AND TIMELINE

- Proof-of-concept study
- Flat implementation fee
- Subscription, service & support
- 1 - 3 months for POC
- 2 - 3 months to deploy, incl. training of existing personnel
- Roll-out handled internally

SUMMARY

In-house development:
- Can exceed $1M in cost
- Takes 1.5 years or longer

SUMMARY

Buy a purpose-built solution:
- Costs 1/3 or less of built solution
- Can be deployed in 3-6 months
- Affordable subscription model
